

RIVERBAY Happenings #3!

Just letting you know about things going on in Riverbay - published *whenever* by Riverbay Association

September 13, 2023

Hello to all Riverbay Friends and Neighbors,

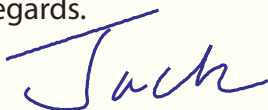

I am writing to invite you to attend Riverbay Association's Annual Meeting to be held at the Chatham Community Center on October 14 at 10am, with coffee served and conversation enjoyed beginning at 9:30am.

Our featured speaker at this year's Annual Meeting will be Kristin Andres, Director of Education and Outreach with the Association to Preserve Cape Cod (APCC). Ms. Andres' experience in the areas of conservation and environmental advocacy directly connects to what we see in our own backyards. This will be of interest to all Riverbay homeowners.

The Annual Meeting will also include brief reports from Riverbay Association regarding membership, events, finances and beautification. In addition, there will be a period for members to ask questions and make suggestions about Riverbay; we are most interested in receiving feedback from all residents.

Please save the date to attend the Riverbay Association Annual Meeting.

Regards.

A handwritten signature in blue ink that reads "Jack".

Kristin Andres

Kristin Andres, Associate Director for Education for the Association to Preserve Cape Cod, the region's environmental advocacy non-profit organization. Before joining APCC as a staff member, she worked for the town of Chatham as its first Conservation Agent for more than 15 years. Kristin serves on several boards and committees, including the Ecological Landscape Alliance, Chatham Friends of Trees, Friends of Chatham Waterways, and the Pollinator Pathway Cape Cod steering committee. She is the regional liaison for Grow Native Massachusetts and an honorary trustee of the Chatham Conservation Foundation. She writes a biweekly column for the Cape Cod Chronicle on natural history topics. Kristin describes herself as slightly obsessed with observing and photographing pollinators, plants, and other wild critters. She's a native plant enthusiast, promoting the use of native plants in the landscape whenever possible.
